### **COVERING LETTER**

To Whom it concerns

#### **[1] Political recipients**

**For the US President and UK Prime Minister:** The attached letter is for your immediate concern. Please read the contents carefully and deal with the issues raised at your earliest convenience. Please also note that I am determined to obtain a resolution of some nature.

#### **[2] Legal industry recipient(s)**

Please advise me how to proceed with legal action against those agencies in the United States of America ("US") who have inflicted abuses upon me. If you cannot help me directly, can you advise me of any possible legal sources in the US who may be able to help?

Please note that at this time, I am dependent upon legal aid to pay my costs. However, as my main concern is justice, any costs which may be finally deducted from any damages I may win, is not an issue. I look forward to your reply.

#### **[3] Recipients in the media**

I am looking for publicity for my story. I have a great deal to say about the US immigration system and how it causes suffering. All I have tried to do is the 'right thing'. I'm just a simple guy who wants to be with his wife. Is this really too much to ask? Are my intentions so bad - just wanting to break down international barriers that divide people in love?

If it is justified to invade other countries and bring death and destruction to them, then I feel no guilt for what I have done so far. I know that illegal immigration tends to raise the hackles of many people, but there is a human factor which should not be ignored. Regardless of why my wife is in the US, it does not detract from the fact that I love her very much.

Her presence in the US is also an indictment of the policy of Westernised nations who use people like my wife as cheap labour. I have not seen her for over a year now. I am desperately heartbroken over this matter and feel that the indiscriminate and abusive breaches of laws in the US is causing unnecessary suffering.

Please help me get my story into the public domain.

Yours sincerely

J D Green
