Your Royal Highness,

I wish to bring to your attention a very serious matter concerning, what I believe, is a betrayal of the British constitution. I'll be as brief as I can.

The issue of protection and assistance for UK Nationals abroad is written into every UK passport. This is done in your name. The ordeal I suffered on January 30th, 2008, as a totally innocent and regular traveler to the US, belies what is written in my passport. Without provocation or good reason or cause, I was interrogated for up to 3 hours by US immigration in San Francisco on the above mentioned date. I was then put back on a plane to the UK.

I was informed by the immigration official interrogating me that I had no rights and that his organisation could do anything with me. I was not allowed to speak to my Embassy or Consulate, and not allowed any other form of communication with anyone who could be of assistance to me. I was even forced to sign a statement under protest upon pain of my Indonesian wife being targeted by US immigration and suffering an equally unpleasant fate.

I was promised a copy of my forcibly signed statement, but it has never been provided and the US government refuses to release it - according to the Foreign & Commonwealth Office Minister of State, Kim Howells.

My salient point is this. I have been informed by Mr Howells that I have no human rights as a UK citizen when traveling abroad. Essentially, the UK Government will not even protest against abuses of UK citizens who are victim to the terror tactics of US immigration officials.

This I will now make clear to you. UNLESS this matter is addressed and that I receive justice, I shall be compelled to issue a writ against the Crown, with yourself cited as a party to this failure to uphold the guarantee as specified in my passport.

I hope you will show your displeasure with your Minister and demand that he either do as I have previously instructed him (see the 'evidence' page on my website for details), and get me justice, or help me to remove this traitor from office. His 'treason' has to be dealt with one way or another. He has shown contempt for both of us.

My full story can be seen on my website: www.nohumanity.com/mystory. I STRONGLY recommend you visit this website and see exactly the torment I have suffered both during and since my ordeal. Please also note that I receive Incapacity Benefit due to numerous illnesses made worse by my ordeal - especially bouts of severe depression. I also fear for the future of my deteriorating health and the safety of my wife - a wife I have seen so little of since our marriage in the US and which is causing both of us a great deal of heartbreak.

Yours sincerely
